## Branding Iron Price List

Prices listed can vary somewhat due to relative simplicity or complexity of the logo or art

**ARTWORK:** We can work from .eps, .ai, .dxf, .cdr, .jpg, and .tif files, as well as from black and white art. If you send us black and white art we prefer it to be 200% of actual size. We can work from clean, black and white art, a positive transparency, or a film negative, although in these computerized days we prefer to work from **vectorized** computer files. We can also do original art from a photograph or rough drawing at a cost of \$45/hr. Avg. charge is \$25-\$75. Half-tones (shading) don't work for branding, although some shading can be done with dots or parallel lines. Keep lettering size above 3/32" (10 point) in height, 1/8" (12 pt) high or larger if using serif style (Roman) lettering. Outline lettering and other intricate styles may need to be larger. We recommend not using white images on a black background in most cases unless the white areas are large enough to stand out. You can send art by mail or email to us for approval. We will inform you if your art will work well as a brand and recommend changes if needed. We do not normally work from faxed art as it is rather poor quality. Jpeg and tiff images are fine for evaluation, but need to be at least 600 dots per inch if we are to use them to work from.

**EQUIPMENT:** We offer the most reliable, heavy-duty equipment available. Our heavy brass/bronze dies are 5/8" thick, and are interchangeable. Our engraving is .120" minimum depth on standard sizes and can be done deeper for extra charge. A **heat control** unit is recommended for all electric branders to insure good image reproduction and to prolong heater life. **Drill press** operated models are available for production branding. Listed below are our **most popular sizes** for **custom** electric and torch heated branders. Prices are listed for any signature, text or logo which will fit within the desired size. For **Hobby Branders**, see below.

**Additional charges for:** heat control; drill press irons; artwork; shipping.

<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;">                 New Size 1" x 2"             </div>	Engraving \$125 250 Watt iron w/ blank die <u>\$210</u> OR \$335  Torch heated \$150	
<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;">                 1-1/2" x 1-1/2"             </div>	Engraving \$150 250 Watt iron w/ blank die <u>\$225</u> OR \$375  Torch heated \$170	
<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;">                 New Size 1-1/8" x 3-1/8"             </div>	Engraving \$170 250 Watt iron w/ blank die <u>\$225</u> OR \$395  Torch heated \$185	
<div style="border: 1px solid black; padding: 5px; width: fit-content; margin: 0 auto;">                 2" x 2"             </div>	Engraving \$180 250 Watt iron w/ blank die <u>\$245</u> OR \$425  Torch heated \$195	

These are our most popular standard sizes, but we can make almost any size and configuration you may need.
